

PEDRO PINTO MEIREIS
PORTO, PT

Hi! I am Pedro (1998) a graphic/digital designer and front-end developer from Porto, Portugal. I have a Bachelor's Degree in Communication Design and a Post-Graduation degree in Information Driven Design.
My work revolves around the printed and the digital media formats, with a particular interest in Product and New Media design where I keep improving my developer skills. With a keen eye to typography and detail, I am always looking for a smart yet elegant and powerful approach to every project I develop both individually or with a strong team.
